

Care of the Young Athlete 2nd Edition

American Academy of Pediatrics Council on Sports Medicine and Fitness
Editors: Sally S. Harris, MD, MPH, FAAP, and Steven J. Anderson, MD, FAAP

This enhanced and updated 2nd edition gives you an easy-to-use, one-stop guide to all aspects of childhood sports preparation, participation, and injury treatment.

The 2nd edition covers safety and risk-management considerations... procedural how-tos for the preparticipation physical evaluation... the latest recommendations on proper nutrition for athletes... proven injury prevention guidelines... detailed treatments for dozens of injuries... and much more.

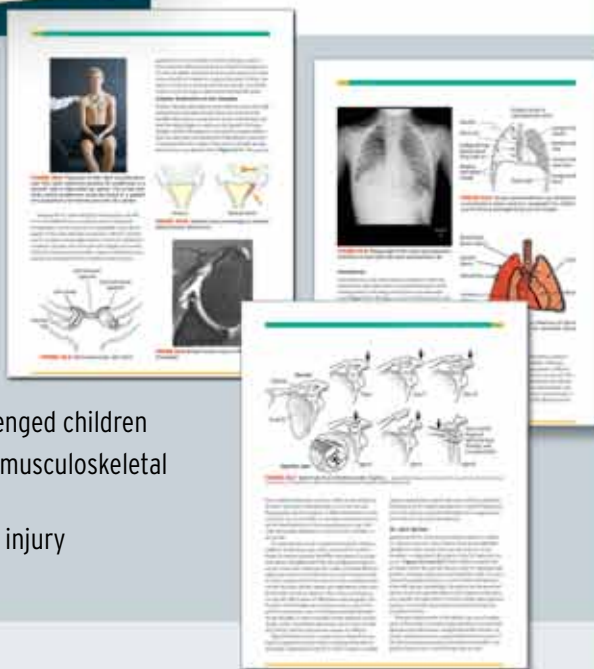

Must-know information and practice-focused advice

Contents include

- Assessing physical and emotional readiness for athletic participation
- Effects of training and competition on child development
- Nutrition, weight loss, and performance-enhancing substances
- Athletic participation for physically challenged children
- Evaluation and treatment of medical and musculoskeletal injuries
- Guidelines for returning to athletics after injury
- Recommendations for specialty referral

NEW in the 2nd edition

- All-new chapters on nutrition and weight control, performance-enhancing substances, risks of injury during sports participation, and acute and overuse shoulder injuries
- Important new findings on issues specific to the female athlete
- New full-color bonus signs and symptoms poster
- Patient education handouts available through password-protected Web site

Contents

General Health and Fitness

1. Benefits of Sports Participation
2. Readiness to Participate in Sports
3. Growth and Maturation
4. Promoting Physical Activity
5. The Preparticipation Physical Evaluation

Training Issues

6. Aerobic and Anaerobic Trainability
7. Strength Training
8. Thermoregulation
9. Sports Nutrition
10. Performance-Enhancing Substances
11. Psychological Issues

Basic Management Concepts

12. Risks of Injury During Sports Participation
13. General Principles of Injury Prevention
14. Return-to-Play Decisions
15. Medical Management on the Sidelines
16. Female Athletes
17. Physically Disabled Athletes
18. Complementary and Alternative Medicine

Medical Conditions

19. Cardiac Conditions
20. Head Injuries
21. Eye Injuries
22. Maxillofacial Injuries
23. Chest and Abdominal Injuries
24. Exercise, Asthma, and Anaphylaxis
25. Acute Illnesses and Youth Sports
26. Chronic Conditions
27. Blood-Borne Pathogens
28. Skin Conditions

Musculoskeletal Conditions

29. Introduction to the Musculoskeletal System
30. Diagnostic Imaging
31. Principles of Rehabilitation
32. Stress Fractures
33. Cervical Spine
34. Lumbar and Thoracic Spine
35. Elbow
36. Acute Shoulder Injuries in the Young Athlete
37. Chronic Shoulder Problems in the Young Athlete
38. Wrist and Hand Injuries
39. Hip, Pelvis, and Thigh
40. Acute Injuries of the Knee
41. Overuse Injuries of the Knee
42. Lower Leg
43. Acute Foot and Ankle Injuries
44. Chronic Foot and Ankle Injuries
45. Nontraumatic Causes of Musculoskeletal Pain
46. Sport-Specific Injury Prevention Strategies

**The widely adopted guide to athletic
 screening—updated...expanded...and enhanced!**

Here's practical, proven guidance for determining athletic clearance, optimizing sports participation safety, and promoting healthy lifestyles.

Developed by leading medical societies, *Preparticipation Physical Evaluation* offers health professionals a systematic, standardized approach to screening young athletes from middle school through college. This newly revised and enlarged edition is adaptable for a wide range of individual or institutional needs.

Step-by-step PPE solutions

- System-by-system physical evaluation guidelines: cardiovascular...CNS...pulmonary...GI/genitourinary...musculoskeletal...dermatologic
- Medical history questions
- Clearance considerations
- Updated return-to-play guidelines
- Expanded discussion of ethical and legal concerns
- Detailed recommendations for evaluating the female athlete
- New sudden cardiac death screening developments
- PPE coding quick reference

PLUS—Easy-to-use PPE Forms

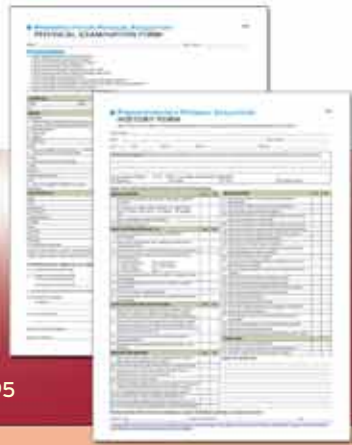

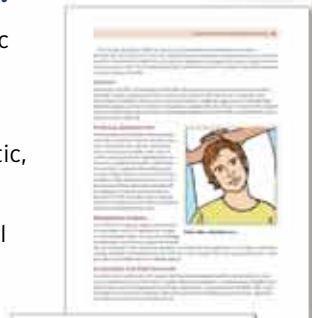

- History Form
- Physical Examination Form
- **NEW!** The Athlete With Special Needs: Supplemental History Form
- Clearance Form

Pediatric Orthopaedics and Sports Injuries
A Quick Reference Guide

Editors: John F. Sarwark, MD, FAAP
 Cynthia R. LaBella, MD, FAAP

Now it's easy to get targeted, trustworthy guidance for diagnosing and managing pediatric musculoskeletal problems. This all-new guidebook efficiently delivers the essential information and how-to-do-it recommendations you need.

You'll turn here often for concise summaries of disorders and injuries, proven evaluation, treatment, and rehabilitation approaches, practice-tested tips, and invaluable clinical pearls.

Efficiently respond to diverse clinical challenges

Get all the essentials for addressing

- Common sports injuries
- Trauma
- Limb disorders
- Spine disorders
- Hip and pelvis disorders
- Infections
- Tumors
- Skeletal dysplasias
- ...and much more

Plus, you'll find step-by-step help with musculoskeletal examination and evaluation... casting and splinting... imaging techniques... and rehabilitation strategies.

Fast-access features help you get right to the point.

Bulleted, outline-format text lets you rapidly focus in on what you need.

High-resolution illustrations, clinical photographs, and radiographic images demonstrate examination techniques and pathologic physical findings. Multiple tables and figures help simplify diagnosis.

Streamline orthopaedic problem solving

Each condition-focused chapter steps you through every stage of patient care

- Etiology/epidemiology
- Signs and symptoms
- Differential diagnosis
- How to make the diagnosis
- Treatment
- Rehabilitation
- Expected outcomes/prognosis
- Coding for proper payment
- When to refer

Contents

Part 1: Growth and Motor Development

1. Normal Growth and Motor Development
2. Abnormal Musculoskeletal Growth and Motor Development

Part 2: Musculoskeletal Evaluation

3. History
4. Physical Examination
5. Musculoskeletal Imaging Studies
6. Laboratory Studies

Part 3: Approach to Infection

7. Osteomyelitis
8. Septic Arthritis
9. Miscellaneous Infections

Part 4: Evaluating the Limping Child

10. General Approach and Differential Diagnosis

Part 5: Spinal Deformities

11. Idiopathic Scoliosis
12. Kyphosis
13. Spondylolysis and Spondylolisthesis

Part 6: Back Pain

14. Back Pain

Part 7: Pediatric Cervical Spine

15. Basic Radiographic Interpretation
16. Torticollis
17. Atlantoaxial Rotatory Subluxation or Fixation

Part 8: Hip Disorders

18. Developmental Dysplasia of the Hip
19. Perthes Disease
20. Slipped Capital Femoral Epiphysis
21. Snapping Hip

Part 9: Rotational and Angular Deformities

22. In-toeing, Out-toeing, Genu Varum, and Genu Valgum

Part 10: Upper Extremity Problems

23. Brachial Plexus Injuries
24. Nursemaid Elbow (Radial Head Subluxation)
25. Congenital Anomalies of the Upper Extremities

Part 11: Pediatric Sports Medicine and Injuries

26. Preparticipation Physical Evaluation

27. Sprains, Strains, and Dislocations
28. Traumatic Muscle Injuries
29. Overuse Injuries
30. Patellofemoral Disorders
31. Internal Derangement of the Knee (Knee Injury)

Part 12: Common Fractures and Physeal Injuries

32. Imaging Fractures
33. Fracture Types
34. Stages of Fracture Healing
35. Physeal Fractures
36. Common Fractures of the Upper and Lower Extremities
37. Casting and Splinting
38. Occult Fractures
39. Compartment Syndrome
40. Child Abuse

Part 13: Foot and Ankle

41. General Considerations
42. Clubfoot
43. Flatfoot
44. Metatarsus Adductus
45. Metatarsus Varus
46. Pes Cavus and Cavovarus
47. Calcaneal Valgus
48. Miscellaneous Conditions

Part 14: Benign and Malignant Tumors

49. Overview
50. Common Benign Tumors
51. Malignant Tumors

Part 15: Limb-Length Discrepancy/Congenital Lower Extremity

- 52: Leg-Length Discrepancy

Part 16: Neuromuscular Disorders, Part 1

53. Cerebral Palsy
54. Myelomeningocele (Spina Bifida)

Part 17: Neuromuscular Disorders, Part 2

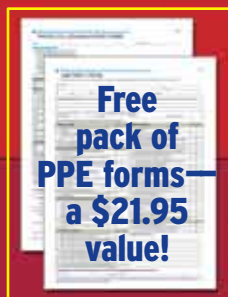

55. Neurodegenerative Disorders
56. Hereditary Neuropathies
57. Spinal Muscular Atrophy
58. Friederich Ataxia
59. Arthrogryposis

Part 18: Genetic Diseases and Syndromes

60. Skeletal Dysplasias
61. Metabolic Bone Diseases
62. Neurofibromatosis-1
63. Hemophilia
64. Achondroplasia
65. Down Syndrome

Part 19: Rheumatologic Diseases

66. Juvenile Idiopathic Arthritis

Includes

- *Preparticipation Physical Evaluation, 4th Edition*
- *Pediatric Orthopaedics and Sports Injuries: A Quick Reference Guide*
- *Sports Medicine in the Pediatric Office*
- *Care of the Young Athlete, 2nd Edition*

"This workbook provides excellent, up-to-date instruction in the evaluation and management of many sports medicine injuries for general practitioners, residents, or medical students. The format, with its case study approach, makes it easy to read and follow....The accompanying DVD is particularly helpful, setting this workbook apart from other sports medicine references for primary care physicians."

Aaron Karlin, MD
Ochsner for Children
—Doody's Review

Sports Medicine in the Pediatric Office A Multimedia Case-Based Text With Video

By Jordan D. Metz, MD, FAAP

Now—for the first time anywhere—a single pediatric sports medicine resource teams a practical skills-focused text with full-motion video clips that show you exactly "how it's done." Using this innovative multimedia tool, you can view step-by-step demonstrations of the examination and evaluation techniques described and illustrated in the text.

- View examinations and tests to determine the extent and location of injury.
- See how preventive strengthening exercises should be performed.
- Profit from seeing proven approaches to diagnosing and managing sports injuries.
- Learn which tests to order when.
- Save practice time with informative patient education handouts.
